

FULONG8 Pitch Deck — 2025-10-21

Vision

Rails to the Tokenized World — a daily superapp where anyone can pay, trade, and tokenize with confidence.

Problem → Solution

Payments are slow/expensive; DEXs feel unsafe; tokenization is fragmented. FULONG8 = instant Any2Any settlement, ARPI-guarded trading, and compliant RWA in one surface.

Product Highlights

ARPI risk bar; Fulo Atlas Sphere; Any2AnyPay; DEX hooks; RWA entity-first; AI copilot.

Go to Market

Start with corridors (freelancers/SMBs), ship transparency dashboards, grow via community quests and pilots.

Roadmap

0–90 days: site + pilots; 90–180: DEX v1 + RWA wizard; 6–12 months: broader corridors + dev plugins.

Call to Action

Join the corridor pilot, test Atlas Sphere, and follow transparency metrics as we ship in public.
